### Woman's Club

The Clovis Woman's Club met in regular session Tuesday p. m. at the home of Mrs. Carroon. Mrs. Harry Crawford had charge of the History lesson. Mrs. C. L. Snyder gave an interesting and practical study of silk manufacture and silk testing. The next meeting will be on March 7. It will be a public meeting for mothers. The Women's Clubs

of the U. S. are planning to set aside the first week in March for a practical study of the best means of preserving and developing child life. This week is to be known as "Baby week." The Clovis Woman's Club will have at least one program to which every mother is invited. The program and place of meeting will be announced later.

## Built for the Business Farmer

The Dort was built for the business farmer. For 29 years Dort had been building farm vehicles. He knew what the farmer wanted for vehicles and what he needed in an automobile.

If an automobile is going to be a business asset to the farmer he must be able to use it every day in the year; when the roads are deep with snow; when the temperature is far below zero; and again in the spring when the frost is coming out of the ground and the mud is so deep and thick that the average car will sink to the hubs and be hopelessly mired.

The Dort is built for these conditions. It is a real farmer's automobile. The price, \$650, puts it within the reach of every business farmer. Its light weight insures low cost of operation.

From every standpoint of mechanical excellence and appearance the Dort merits a careful investigation of the Business Farmer.
